THE BEST TEAM EVER

THE SLAVES WORKERS BEHIND OCCT

At OCBASE, the people behind every project are passionate about technology.

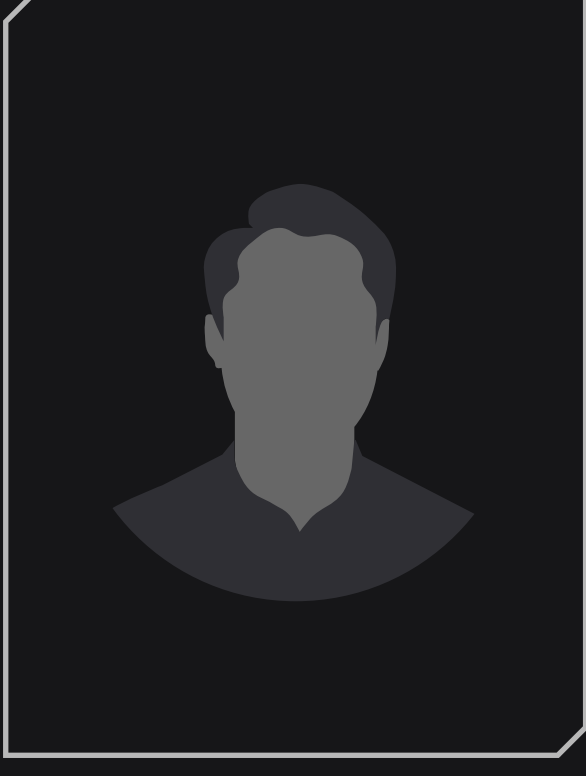

Each brings his or her own touch: some code tirelessly on the backend, others design clear, intuitive interfaces, while our sales people dive into the numbers to unearth new opportunities. (texte 100% humain)

THE STORY OF OCCT

SOUS TITRE COOL

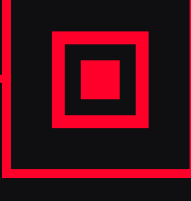

CPU TEST

2003

BORN... IN THE USA 

OCCT, short for "OverClock Checking Tool," began as an experiment during a student exchange in Oklahoma back in 2003.

Driven by a desire to stress-test overclocked PC builds, Adrien Mercier developed OCCT's very first test — which quickly gained popularity across online forums within the overclocking community.

COMPLETE CODE REWRITE

2022 - 2023

GOING ALL IN

At the start of the decade, OCCT underwent a major code overhaul and gained even more traction among PC enthusiasts.

When Covid hit, it brought the opportunity to take the software to the next level — OCCT became a full-time endeavor.

SSD TEST

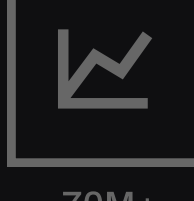

ON PREMISE

2024 - 2026

A NEW FRONTIER

Backed by a growing team, OCCT evolves with a refreshed visual identity and strengthened professional capabilities, while expanding to new platforms.
